

PRETTY GOOD TOGETHER.

It's easy to have fun in the city – given it's precisely what the MINI 3-door was made for. With its signature go-kart feel, it masters even tight bends and narrow lanes effortlessly and with ultimate precision. Flawlessly adapted to urban living, the MINI style stands out for so many reasons. For example the Multitone roof, a creative take on the contrasting roof and now available for the first time straight from the factory. Or with the stylish Piano Black exterior and standard LED lights with Black high-gloss inner casing – extraordinarily, purely and 100 % MINI.

AS POWER-FUL AS YOU PLEASE.

Each MINI model has its own special strengths. But they all have one thing in common: powerful, clean and efficient MINI Twin Power Turbo technology. The 7-speed double-clutch transmission notches it up a gear.

The new adaptive chassis in the Cooper and Cooper S delivers the perfect balance between comfort and athleticism. MINI Driving Modes MID and GREEN offer efficient and economical vehicle settings – and in SPORT mode you can change the steering and accelerator characteristics at the touch of a button.

COOPER S.

Full speed ahead: The 2.0 litre, four-cylinder petrol enging with 141kW/192hp delivers the perfect performance whatever the lay of the land. Continuing the theme are its athletic appearance with air inlets in the bumper and bonnet, the rear apron with diffuser insert, central double tailpipes and model-specific rear spoiler.

COOPER.

The 1.5 litre, three-cylinder petrol engine in the Cooper delivers 100kW/136hp - the perfect combination of dynamice and efficiency.
