

THE NEW MINI HATCH 3-DOOR
THE NEW MINI HATCH 5-DOOR.

EXPLORE MORE CORNERS.

The new MINI Hatch is made to enjoy urban life to the full. The sporty go-kart feeling makes it fun to drive around tight corners and make your own way through narrow lanes and heavy traffic with ease. The new MINI Hatch sticks out of the crowd with sophisticated style. Combined with the advanced MINI Connected features, these qualities are driving you forward to find the best places to be wherever you are. Go exploring.

Downtown is no place for mainstream. With its long tradition in breaking rules, the MINI fits perfectly to this environment.

In its classic version, the MINI 3-DOOR offers space for 4 passengers plus 211 litre for luggage. The MINI 5-DOOR is slightly longer, has 5 seats, noticeably more legroom in the back and 30% more space for baggage.

BE DIFFERENT.

When you opt for a MINI, you opt for choice;
Is yours going to be a Cooper, Cooper D or Cooper S?
Uni-colour? Or with a contrast roof?
The range may be broad, but the core of MINI’s
character is and remains the creative concept of its creator
Alec Issigonis; compact dimensions, short overhangs,
low centre of gravity and wide track for the sheer
enjoyment of sport driving plus maximum
manoeuvrability.

WHEELS.

YOUR INTERIOR, YOUR ROOM.

Looking well ahead: In the dark. The standard LED lights provide powerful, clearer visibility. The daytime running lights features LED indicators with an eye-catching action thanks to a unique full circle design.

LED technology is standard for the rear lights of all 3-Door and 5-Door MINI models. The typically Union Jack design shown here is available for Cooper S.

SUPPORTIVE, PROTECTIVE, INNOVATIVE.

Now you'll never lose sight of the important things. The MINI head-up display shows you the data you need as you drive, and you don't have to take your eyes off the road ahead. It notifies you of speed limits and no-over-taking zones, for example. It flashes up instructions issued by the navigation system and shows you the current cruise control setting.

Harking back to the classic Mini with the round speedo in the middle of dashboard: the Centre Instrument 6.5" and 8.8" display with touchscreen function and various user friendly MINI Connected Services and MINI Connected apps.

With one switch you can change from super-efficient GREEN mode, which optimises fuel delivery and disengages the engine when your foot's off the throttle. Fancy a bit more oomph? Switch to SPORT model for more responsive steering, faster acceleration and a throaty engine growl. Or there's MID for a happy motoring medium.

The innovative 7-speed automatic double-clutch transmission with ergonomic electronic selector lever shifts without interruption of tractive force, enhances comfort and saves fuel.

READY TO EXPLORE MORE CORNERS?

Now you've read about what sets a MINI apart –what it means to drive a MINI is something you have to experience for yourself. Your MINI dealer will be glad to give you the opportunity. Arrange a test drive, slip into the driver's seat and press the start button. Open the throttle and enjoy the experience of agile handling and the unique go-kart feeling that made MINI famous. Have a very special day and enjoy your drive.
